BULLETINS ARE ISSUED

Eric Road Dines Meeting Points.

EXCUSES OF IGNORANCE

In the Future will not be Tolerated.

Local Hocking Valley Employees to Receive Pay in Cash—Happenings in Local Railroad Circles.

A bulletin issued by the general manager of the Erie has been posted in all local Erie offices. Copies of the bulletin have been placed in the hands of the telegraph operators with the instructions to supply all conductors and engineers with same and to receive receipts for them.

The bulletin defines in simple terms the meeting points of trains at Marion. It was issued as a result of the head-on collision which occurred in the local yards several weeks ago. The bulletin makes plain the fact that all trains meet at Marion means that there is a union depot at that point. Trains meeting at the "H" tower means when east bound freight trains pull into the receiving yards. "M. J." tower means the west lead to the ice house track at west end of Marion yards.

The officials have endeavored to make the points concerning the local yards, plain to all employees of the lines and excuses on account of ignorance will not be tolerated hereafter by the company.

The local Hocking Valley employees have received notice that they will receive their pay on November 20th, which is about eight days later than usual. They will receive their entire salaries in money, a feature over which there is much rejoicing.

Pennsylvania brakeman Fred Essex, who has been off duty for several days on account of the death of his father, today resumed his work in the local yards.

P. J. Morarity, night operator at the local Pennsylvania telegraph station is off duty on account of sickness. Charles Ballinger of Caledonia is supplying the vacancy.

"THE FLAMING ARROW"

Comes to Grand Opera House Thursday Night.

Lincoln J. Carter will present at the Grand Opera House Thursday evening the stirring drama of western life, "The Flaming Arrow."

The story relates to the love of a daughter of a colonel of the United States army, commanding a western post, for a young Indian, "White Eagle"—and the machinations of two villains which furnish the motives of the action. The villain inflames several braves to make war on the destined forces at the fort, and in the attending excitement abduct the commander's daughter. The daughter, after a series of hair raising ventures, is rescued by her Indian lover and justice is dealt out to the villains in true western style. The cast is a large one and contains the names of many prominent people. A tribe of full-blooded Indians are also carried. The scenery is said to be especially elaborate, many of the scenes being taken from real life.

Carr's Trade Letter

Weekly review of Grain Trade Conditions which are shaping prices, prepared expressly for the Mirror by H. H. Carr & Company, Commission Merchants, 96 Board of Trade, Chicago, Ill., who possess unequalled facilities for executing orders for future delivery.

The bearish conditions which we outlined in our last letter continued in force up to Friday. Prices at extreme low point of the week reached \$9 3-8c for December, 99c for May. This was the end of a decline of 15c to 18c for these months from the high point last month. London, Paris and Berlin all advanced their bank discount rates sharply late in the week. All the foreign markets came lower on wheat day after day. There was no let up in the selling pressure here until the December price got under 90c and the May price under \$1.00. Today conditions are more normal than for sometime. Engagements of gold for import amount to \$50,000,000. Export clearances of wheat and flour, 5,500,000 bushels for the week. The feeling has somewhat improved in banking circles. Receipts of grain at primary markets have been much smaller. Chicago stocks of wheat reduced over 4,000,000 bushel the past six weeks. Those who sold wheat short on the decline are inclined to cover. Others who sold out holdings begin to replace same. Market showed decided improvement with upturn in prices at close of the week. Early seeded wheat in several European countries has been damaged by extremely cold weather. Late cables claim cold cloudy weather for northern Argentina where wheat crops are nearing harvest. In our last we asked for selling orders in wheat because we saw the natural drift of prices under very adverse financial conditions. Now we say the market has had its punishment and buying orders filled on the oversold spots will get the money. Those who entrusted us with discretionary orders on the selling and had good profits to their credit and had good profits to their credit inside of 24 hours, after their orders were executed. The same experience can be repeated on the other side of the market. Remember that a bushel recovery from an oversold spot means 20 per cent. on the money required to margin the trade. We advise the per bushel protection on (discretionary) speculative orders. If the market makes the recovery which we think is due to a profit of this kind should easily be secured two or three times during the week with active turns in the market. Those who hold off and wait to see what the market is going to do will miss the best of profits.

Late in the week the government estimate on corn yields for 1907 was given out. The average yield per acre is estimated at 26 bushel. The total crop is given at 2,548,000,000 bushel. The figures were not as low as many in the trade expected. The fact remains that the total corn raised this year is 259,000,000 bu. less than actual production from the 1906 crop. Lower prices for hogs mean less extensive feedings of corn at high prices. Visitors from the West are telling of poor husking returns. Financial conditions are causing very light receipts. We look for a turn in this market for the better as prices have had nearly 10c break from high point of last month.

Following the break in corn May oats sold under 50c late in the week. There is little public interest in the market and we believe real activity will come only with an upturn in prices.

CARR.

ROBERT NEIDIG'S RESIDENCE BURNS

Fire must have Started from Defective Flue.

Family was Absent From Home but Neighbors Save Part of the Household Goods.

Fire Wednesday morning about 9:30 o'clock completely destroyed the residence of Robert Neidig located on Fairground street, near the city limits. The family was away from home when the fire started in the upstairs presumably from a defective flue. Neighbors rushed to the scene and succeeded in removing a portion of the down-stairs household goods but everything on the second story was destroyed and the structure burned to the ground. The loss is estimated at \$1500, and is partially covered by insurance. The house was insured for \$700, and furnishings at \$300.

WEDDING FOLLOWS LEAGUE MEETING

Ceremony is Performed by Rev. C. E. Rowley.

Miss Mary Alexander and Alfred J. Walker Married at Wesley M. E. Church.

At the close of the Epworth league meeting at the Wesley M. E. church last night, Alfred J. Walker and Miss Mary Alexander, two prominent members of the league, gave the members a complete surprise by announcing that they were to be married immediately and the league was invited to witness the ceremony. Rev. C. E. Rowley spoke the service. After the ceremony and the incident congratulations the bride and groom went to their new home on North Main street, where they will be at home to their friends.

Miss Alexander is the daughter of Augustine Alexander of Cottage street and is an excellent young woman. The groom is employed in a responsible position by the Norris and Christian company. Mr. and Mrs. Walker have the best wishes of a host of friends.

Funeral Services.

Funeral services over the remains of George Shown were held at Epworth M. E. church yesterday afternoon at two o'clock. Rev. D. H. Bailey officiating. A delegation of the members of Marion lodge, No. 70, F and A. M. attended the funeral. The remains were interred at Marion cemetery.

The funeral service of John Essex was held at two o'clock yesterday afternoon at the late residence of the deceased on Park street, Rev. George E. Barnard officiating. The remains are buried in Marion cemetery.

Bells Corners

Everything went Democratic in this township, which was no surprise to the politicians.

Mr. George Harris near Bell's Corners is making ready by selling his property to soon locate in Marion.

Quarterly meeting of the Fairview circuit was held in the Essex church last Saturday and Sunday. The stewards from this point attended the business meeting on Saturday afternoon.

Mr. D. Strawser, who resides north of LaRue, visited with relatives near Bell's Corners last Sunday.

Mrs. M. O. Watkins is in very poor health at the present time. The infant son of Mr. Isaac Sauer was buried at Arbella last Friday.

Mr. D. D. Clifton of LaRue, named through our township last Monday with a load of fine registered lambs bought of Madison Company, breeders.

Mr. Jake Wasserback is making ready to move on the home place since the death of his father to take charge of the farm. Mrs. Wasserback will make her home with her daughter in Prospect.

J. C. Emmons who is a teacher in the Scottown high school was the guest of his parents near Bells Corners last Sunday.

Mr. M. L. Sager, former Essex merchant and who recently sold out to M. O. Watkins in LaRue, has just finished making some very substantial improvements to his residence near the LaRue South bridge.

Mr. F. O. Price, who recently sold his farm to Lafayette Holt is contemplating going to Michigan and locating in the fruit belt.

Mr. Jess Patton of Deadwood, is having splendid success with the school he is teaching in the John Riley district in Green Camp township.

Mr. Guy Prettyman of Marion, has moved in with his mother near Bells Corners.

Miss Catherine Lauer who recently had the measles is slowly recovering.

Mr. H. E. Bell, who has been at Richwood for some time serving as an apprentice in Briddle's picture gallery, is at home at present under the care of the doctor. Mr. Bell was recently injured while out automobile riding.

Mrs. Maud Monk is on the sick list.

Miss Mary Alexander, who is attending school in LaRue this winter was the guest of the Bell's school last Friday.

A great deal of soft corn is found this fall which if fed early will be as good as the sound corn. The pike construction work in our locality is at a standstill at present owing to the heavy rains which we are having in abundance. The interurban line from Richwood to LaRue is not progressing as fast as desired. Speculators are nearly out of breath waiting for the cars.

P. E. BURKE IS APPOINTED

Honor Well Bestowed by Mayor.

MEMBER SAFETY BOARD

Will Succeed Charles E. Gompf Jan. 1.

Appointment Made After a Careful Canvass—Mr. Burk Well Qualified for the Position.

It has been definitely determined by Mayor Louis Scherff that Mr. P. E. Burke, chairman of the Democratic city central committee, shall succeed Charles E. Gompf, as member of the board of public safety.

On January 1, Mr. Gompf's term on the safety board will expire and as on that date he will assume the duties of justice-of-the-peace, succeeding Harry Thompson, he will not be reappointed. It is up to the mayor to fill the vacancy on the board and in order to keep the board non-partisan he will appoint a Democrat.

After a personal canvass of the many applicants for the position and at the urgent recommendation of both the Democratic city and county committees, Mr. Scherff has decided to appoint Mr. Burke, who is in every way fitted for the responsible position.

Mr. Burke has been chairman of the city committee for some time and has done much for the various party successes in past years. While the formal notice of the appointment will not be issued for some time, Mr. Burke is already receiving congratulations on being appointed to the position for which he had no made application.

Baby's Dress.

A little baby's arm grows so fast that the sleeve is outgrown before the end of the dress. Instead of gathering the sleeve of the first dresses on a calashband, run a small tuck just above the hem, sew up the sleeve, then work a buttonhole in the tuck at each side of the seam, run baby ribbon through the tuck, draw it up and tie. As the tiny arm grows the sleeve can be tied closer, and does not cut the tender flesh as a band would do. Whip a pretty piece of lace on the hem for a finish.

It is a real pleasure to set at the Family Table in the evening and read by a good Portable Gas Lamp.
